Startling Statement.

Washington, October 17th.—In his address before the Boys' and Girls' National

Home Association to-day, Alexander Hogeland, the President of the Association,

made a startling statement that there are 60,000 boy tramps in the United States. He

advocated the establishment of a registra-

tion system by which boy tramps might be found and sent to farmers who are willing

NATIONAL BOARD OF TRADE.

Convention. Louisville, October 17th .-- At the second day's session of the National Board of Trade to-day resolutions were adopted in substance as follows: "That our rivers and harbors should be improved and mainnavigable streams unless amply suffi-cient in width and hight. That Congress should organize a naval reserve force, and that Congress be asked to foster the merchant marine by every legitimate means, especially to South America." Torrey's bankrupt bill was indorsed and a memorial adopted reciting its virtues and recommending it to Congress for enact-

The meeting closed to-night with a grand banquet and an address by Henry Watter-son, who spoke on the general state of the

country.

In concluding his address Mr. Watterson referred to the El Dorado, the new South at length, speaking of the richness of the fields to be opened up there. He added: "But what is the value of all this if we have not order and law regulated by an inhave not order and law regulated by an in-telligent and responsible Government? How shall it profit you or us or anybody if it be not brought under the spell of that wizard's wand which we call civilization? And to whom shall this wand be com-mitted? To Anglo-Saxons, with centuries of enlightened freedom behind them? Or to the African just emerged from slavery? "No one can comprehend the meaning of to the African just emerged from slavery?

"No one can comprehend the meaning of this great menace to the prosperity of the South who has not been there, and who does not live there. Nor is it possible for it to be treated with wisdom by any other than the local agencies. Cannot the thinking people of the North imagine, if they are unable to see this? Can they not feel to the notice he called to-day, but his manner was very meek compared to what he had led the public to suppose it would be. He disclaimed the hissing of the flag, and thought the audience was merely expressing the report of the Committee on Credentials and other routing the meeting.

The Mayor did not attempt to contradict this, but emphatically repeated his remark.

#### LAND AND WATER. A Combination of Railroad and Ship

Lines in the South. BIRMINGHAM (Ala.). October 17th -A arge railroad and steamboat deal is now made that H. D. Plant, President of the Plant system of railroad and steamship lines, and John A. Inman, President of the will sail for Genoa on November 1st. Richmond Terminal Company, have obtained control of harbor rights at Tampa Fla, and have determined to make that port the shipping port for the exports and freights from the Southwest and Northwest to Europe and South and Central

The line will carry its own freight and that of its connetions to Tampa instead of to Boston, New York and other ports. The lines in the movement are the Richmond Terminal Company system (including the East Tennessee, Virginia and Georgia, the Central of Georgia, the Richmond and Danville, Georgia Pacific), the Plant system, the Louisville and Nashville, Texas, and Pacific Southern Pacific and probable. and Pacific, Southern Pacific, and probably the Queen and Crescent.

With the Plant steamship lines several

new lines of steamships are to be estab-lished, the harbor is to be improved, new wharves built and terminal facilities arranged. Plant and Inman will build an air line from Tampa to Mobile and New Orleans in order to facilitate the handling f Western freight from the Southern Pa cific and other lines terminating at New Orleans. The deal was brought about by the action of a number of trunk lines.

#### VILLARD'S VICTORY. He Succeeds in Getting His Pet Financial

Plans Adopted. New York, October 17th.—The Northern Pacific preferred stockholders held a meet ing to-day. Chairman Harris presided The only other Directors present were Henry Villard, C. L. Colby and Brayton Ives. A large number of Wall street men and holders of stock were present. The only business before the meeting wa

Voting on the plan began at 10:30. soon became apparent that the Villard party would win. Johnston Livingston offered the follow-ing resolution, which was adopted, and

which is in direct sympathy with the cir-cular issued September 21, 1889, by Chairman Harris. The resolution was sec much to everybody's surprise, by Henry Villard. The resolution is as follows: Resolved, That the holders of preferred stock represented here suggest to the incoming Board of Directors to take into consideration the distribution of the whole amout due the preferred stockholders as soon as the company should be in a proper position to do so.

No negative vote was received. Just be-fore noon James B. Williams announced that the financial plan had been carried. Owing to duplicate proxies having been de posited, he could not announce the exact result. Adjournment was therefore taken until Monday.

Henry Villard voted a majority of the stock. Robert Harris, President of the

company for many years, and who last year acted as Chairman of the Board of Di-rectors, is dropped from the Directory, and so are Brayton Ives, J. C. Bullitt, Fred. Billings and John H. Brookman.

The new Directors are George Morrison,
James Haggin, C. H. Leland, Charles C.
Beaman and J. B. Williams. A slender
minority of the stock was voted by Robert
Harris in favor of re-electing the old Board.

### MARINE CONFERENCE.

The Organization Completed-Five Se sions to be Held Each Week. WASHINGTON, October 17th.—The International Marine Conference convened in regular session to-day, with Admiral Frank-lin presiding. The organization was then completed by the election of the following officers: Secretary, Lieutenant Colman, United States Navy; and as additional Sec-recaries, Cecil B. Spring Rice of Great Britain, Charles Riviere of France and

Walter Bliss of Germany.
Parker's Manuel was adopted as a guide and it was decided to hold sessions every day in the week but Saturdays and Sundays. The rules were then taken up and discussed informally by the delegates, and amendments offered, but no decision was arrived at, owing to the absence of a French interpreter. It was decided that discussions can be carried on in either French or English,

and that in deciding questions each nation represented to have but one vote. The discussion to day was based upon "Revised international rules and regulations for preventing collision at sea," contained in a circular issued by the United States Treasury Department in September, 1887. This was adopted at the suggestion of the American delegates as a basis for action, because it was in convenient shape and af-forded a good starting point.

The votes upon the suggestions or propositions of the change are seldom taken, for sitions of the change are seldom taken, for the reason that after the regulations shall be thoroughly discussed they will be put into shape for final acceptance by the committee for that purpose and who the committee for that purpose and who may be the committee for the purpose and who the committee for the purpose and the committee for the purpose and will be guided in their work by the expressions of the Conference.

Our contemporary states as an objection, that it required five days to make the count in Montana, and that it then developed that only an official count could give the exact result. How was it in San Francisco last fall? Did not precisely such a situation develop in that city then, and was it not many weeks before it was settled by an official recount who were chosen for Congressional and other stations? Now if anything is certain about an election this is, that under the Australian system "stuffing" the ballot-box is all but impossible; that virtue goes a long way to commend the system. Another good in it, as modified, is that it is impossible for any one to dictate to the voter how he shall vote, since he cannot cast his vote until he has retired to a booth alone, and from that booth he must return direct to the ballot-box. We have yet to hear of a human being who has objected to such a regulation, and in all the States where it has been adopted, it has met with the favor of all men except vote brokers and baliot-box stuffers. The entry of the names of all candidates upon the elector's ballot is wise, for it enables the poor man, the convention-rejected man, the "whittled out" candidate, the man obnoxious to to rings and cliques, to present his claims to the voters. The printing of the ballots by the State is wise, because it eliminates the ticket peddler and secures perfect uni- by Mary Clery in a dive in San Francisco formity in the ballots, and therefore per- the San Francisco Alta says: "We would fect secrecy of the ballot, an end that is the suggest, however, that instead of hanging purpose of all election laws, and that lies the murderess, her husband be hanged, for at the root of manhood suffrage. THE QUESTION SETTLED.

This is a faithful pic ture of the establish ment of Thomas Price & Son, at 524 Sacraleading chemists of the west, they were

asked to settle the question as to what sarsaparillas were in fact purely vegetable. We present their report. "We have made careful chemical analyses of several well known brands of sarsaparilla, and have found them all with the single exception of Jou's to contain jodide of potassium. As a result we are enabled to proounce Joy's to be the only purely vegetable sarsaparilla now on the market, which has come under our observation." Modern medicine has proven that all ordinary face eruptions are caused by indigestion and sluggish circulation, which call for vegetable alteratives. instead of mineral blood purifiers like jodide of potassium. Joy's Vegetable Sarsaparilla is the first to discard the old notions and proceed under the modern theory. Its cures are the talk of the hour.

The last touches are being put on the levee along Parvin's, Figgs' and Hart Smith's ranches. The levee at the wing-dam below Walnut Grove is a good one, and wellthrown back at places where there is a possibility of the bank washing.

The old river levees, generally speaking, were sufficient to keep out any high water of the past fifteen or twenty years before the new work of this year was added, yet all the land-owners cheerfully raised their levees to the newly-established grade, in order to be in uniformity with the immense levee which is being constructed mense levee which is being constructed along the lower four or five miles of Steamboat slough and also the cross levee being built by Mr. Ferris of Stockton, who is a gentleman of large experience in such works, and takes a pride in building good levees.

being permanent, and that it is more sub-stantial than the usual contract-work. Indeed, Mr. Ferris is really doing it much better than the specifications require.

While it would be desirable that the work should be in a more forward state, yet all the heavier parts, as, for instance, the base, were there were cuts and excavations, are finished in all the exposed places; and although the fact is not apparent to one unfamiliar with levee building, it will not take long to finish the levee. If the weather remains at all favorable, Mr. Ferris is confident that by December 1st Grand Island will have such a levee as will be able to resist successfully even such a flood as that of 1861. The levee thereabouts has such a width of base (some 150 feet or more) that it seems as if it the last high water, eight feet wide on the top, with a slope of one foot in three in all exposed places and on both sides of the

The woman secured good legal counse strengthened by the aid of special counsel. It was not a difficult matter to prove guilt, under the circumstances, and Judge Buckley yesterday decided that a case had been made out against the woman. At the request of her counsel sentence was post-poned until next Monday, and it is possible that if she will leave the city her sentence may not be enforced.

If Kitty Crowley is a vagrant, there are scores of other vagrants inhabiting the same part of the city, both male and female, and the police can find plenty of work in arresting and prosecuting them as vigorously as they pushed this case. The town would be better off without them, and if they are outlaws they have no busi-

ness here.

Kitty Crowley was found guilty because it was shown that she lived "in and about houses of ill-fame." There are squads of spindle-legged, thin-necked, yellow-faced male opium fiends and thieves about the streets who are generally supposed to have their habitations with debased women in just such houses. Frank Martin, one of his countrymen, was attorneys where all present, but the complaining witness failed to put in an appearance. After waiting some time, the Court ordered a recess till 2 o'clock P. M., and a bench warrant was issued for the arrest of Martin for contempt of Court.

Constable George Martin went out to the that he had come to the city, and a search was made for him, but the officer failed to When the Court reconvened, District At-

torney Bruner consented to a motion for the discharge of the prisoner, for want of testimony to prosecute. The warrant against Martin was, however, continued in force, and the Constable instructed to run him down, if possible. The supposition is that the case had

been "fixed" outside the Court, in the same fashion that Chinese cases are generally compromised. Justice Devine and District Attorney Bruner were both greatly incensed at the action of the prosecuting witness, and if found he will probably be made to pay a good round fine and perhaps get a term in the County Jail. When he first called on the District Attorney for a warrant the latter refused to issue it unti Martin produced strong corroborative evidence that the crime had been committed

which he atterward did.

Mr. Bruner is satisfied that the case would have been a strong one against the accused had the testimony been available, but under the circumstances there was no good reason in holding the prisoner or piling up expense against the county. If Martin should be caught he will doubtless be find at least enough to cover the extension of the St. Paul club, but being only suspended, he could not do so.

One saloon-keeper, who has been familiar with Cooper's habits, told a Record-Union reporter on Wednesday that, while the autopsy may have shown a deranged condition of deceased's stomach and kidneys, he did not believe that the results were due to alcoholism, for he had seldom known Cooper to drink liquor, his cus-tomary beverage being beer. Still, there was no other apparent cause of death, and the theory that Cooper's over-indulgence in drink was responsible for his sudden

But there have been later developments that throw a different light on the subject, and it may yet be developed that the unfortunate young man owed his death to violence. It seems that on the evening of meeting of the Ladies' Museum Association at Pioneer Hall yesterday that the election of officers was postponed. the day preceding that of his death Cooper was assaulted by some Chinamen in the alley between Second and Third, I and J streets, and received a severe beating with one of the hickory poles used by the Chinese for carrying baskets. The McKee Rankin company presented Rankin and Maeder's domestic drama, 'The Runaway Wife," at the Metropolitan Theater last night. It was well played throughout. The three characters of first chief interest in it are Arthur Eastman (Mr. Rankin), Lady Alice (Mabel Bert) and Arthur Vere (Mr. Wyngate). These were fully equal to the exacting demands of the parts. Mr. Rankin is an actor of long experience, of intelligence and dramatic discernment, and of fine stage presence. NEGOTIATED A LOAN.

The Government of Bulgaria Has at Last Established a Credit, LONDON, October 17th .- The announce-

ment that German and Austrian bankers had finally made a loan to Bulgaria, which that Government had been vainly seeking to negotiate for over a year, is a piece of information of political importance which can scarcely be over-estimated. It is known that these same bankers had repeatedly refused to make a loan on the advice of Prince Bismarck himself, who pointed out as his sole objection that no European power had recognized the existing Government in Bulgaria.

The fact that money is ready to be drawn

upon within twenty-four hours after Bis-marck's conference on the subject of Bulgaria with the Czar, is accepted in Berlin as well as here, as a proof that a distinct understanding was reached which assured the permanency of Prince Ferdinand's rule over his little principality.

RELIGIOUS WAR IN IRELAND. The Pretestants and Catholics are Warring at Maryborough.

DUBLIN, October 17th.— The trial of Father McFadden and others for participation in the murder of Police Inspector Martin, at Gweedore, began to-day at Maryborough. If the Crown Attorney succeeds in the evident purpose of obtaining a jury twelve Protestants, it will not be without many unseemly disturbances. So violent were the protests to-day at the action of the Crown in dismissin every Catholic veniremen that the procee ings had to be suspended pending the arrival of a large force of police. Two jurymen accepted by both sides and told to stand down when the prosecution were informed that they were Catholics, be-came so enraged they they refused to leave and had to be ejected by force. In the struggle that ensued several hot-headed members of McFadden's flock took pari, and for a time it looked as though a riot would result. A large force of police is on the way to Maryborough from Dublin.

DYNAMITE GUNS. The Inventor Tells What He is Able to Accomplish With Them.

Berlin, October 17th .- Zelinski returned yesterday from a tour of inspection made by permission of the German Government to Kiel, Wilhelm, Shafer and Essen. Concerning the Herald's report of the per-formance of his gun, he says: "While fifteen torpedoes were fired in seventeen and a half minutes, less than the time called by our contracts, if the Vesuvius had had a well-trained crew, which, being out of commission, she had not, those fifteen rounds could have been fired in five min-utes. CANADIAN SCANDAL. A Proposed Divorce Case in High Life-

The Principals. OTTAWA (Ont.), October 17th .- The sensation of the hour at the Dominion Capital is the announcement that D. B. Chisholm, hose wife recently secured a Chicago divorce to enable her to marry Hon. George oster, Dominion Minister of Finance, will apply to the Senate here at the approaching meeting of Parliament for a divorce on his own account, failing to secure which he will claim Mrs. Foster as his wife and demand that she shall leave

Chisholm, it is stated, threatens to make it warm for the Minister of Finance if the Canadian Parliament refuses to grant him a decree of divorce, as that action by Parliament will be tantamount to declaring Foster's marriage to Mrs. Chisholm illegal and their living together a crime against the laws of the land. The excitement caused in society and political circles by the announcement that Chisholm is to return and claim a divorce or his wife may

Several amendmen' ats were considered and adopted. The discussion on the proposed adoption of the change in the prayer-book, which had been passed by the Bishop' but was not contained in any report, Caised a great deal of confusion, but the matter was voted down.

The question of the adoption of the last prayer in the book was then brought up. Several speeches were made on this, and in the course of debate Mr. Handing, a member from Missouri, objected to any more revision. "The only persons," said he, "who will be benefited by this revision are the booksellers."

Dr. Huntington closed the debate and the amendments proposed by the committee were adopted.

At to-night's session the Board of Missions was occupied with a discussion of the million-dollar enrollment fund. It was finally resolved that subscribers to the fund may upon demand receive their money back, if the demands are made within a year, and at the expiration of that period the remainder of the fund, which now amounts to \$55,000, may be expended for missionary work.

WHOSE OFFICE IS AT SACRAMENTO, CAL.,

INLECTRICITY, THE WONDER OF THE AGE ELECTRICITY, THE WONDER OF THE AGE, troots the disease from its stronghold. It penetrates the secret ambush of disease and exterminates it, root and branch. It removes the wretched symptoms of loathsome maladies and averts their dreadful results. It relieves more agony and suffering than torgue can tell, as the following personal references will show:

What P. D. BURBANK, a resident of Sacramento for thirty-one years, has to say about DRS. DARRIN & QUINLAN:

TO WHOM IT MAY CONCERN. For a number of years I have been troubled with deafness; also, my stomach, bowels and kidneys were very much diseased. I consulted Drs. Darrin & Quinlan for relief. I have taken their Electro-Magnetic Treatment about one month. I consider myself in every respect radically cured, feeling better than I have for years, and cheerfully recommend the Ductors to the afflicted public.

P. D. BURBANK, 1623 Eighth street.
